  - 6" remote cable pressure pad switch
- ▶ Manufactured in the U.S.A.

POLICE

The AR-2A laser, for AR-15, M-16 and M-4 style rifles with an A-frame front sight, provides maximum flexibility in critical situations. This lightweight, waterproof unit is equipped with a visible Super Power Point™ laser for maximum daytime visibility and meets MIL-STD-810F requirements for reliability under harsh environmental conditions.

The AR-2A laser includes a sturdy MIL-SPEC-1913 rail mount to accommodate our popular OPERATOR® lights or other accessories depending on your mission requirements.

Export license required. An optional Infrared laser diode is available to Law Enforcement and Military agencies only.

MEETS MIL-STD-810F FOR ADVERSE ENVIRONMENTAL CONDITIONS

"I personally carried one of your AR-2A lasers while in theatre. I was absolutely amazed by the range the device could be used at as well as its daytime capabilities. Your laser helps me and the rest of my unit in critical combat missions."  
—Michael, Bellevue, OH
