

OPERATOR®

OP-6 & OP-9 HANDHELD OR WEAPON-MOUNTED TACTICAL LIGHTS

LDI Patent No. 6,183,106

Our impeccable *OPERATOR* series of tactical lights can be handheld or mounted with or without a laser on a variety of law enforcement and military weapons. Their compact size, ultra-light weight and superior beam quality make the *OPERATOR* lights a must for any operation or extended mission where every ounce counts.

Choice of 6-volt *OP-6* or 9-volt *OP-9* equipped with either a shock absorbing incandescent light or a blinding high intensity LED.

Mounting options include a quick release throw lever mount or MIL-SPEC ring mount (shotgun mounts sold separately, see p. 20).

Interchangeable tailcap switches allow users to custom configure the light to meet mission requirements.

LDI's superior quality *OPERATOR* lights are used worldwide by law enforcement and military personnel who depend on professional grade lights with the versatility and durability to accomplish any task.

“An excellent flashlight

that supports us and sheds light in the darkest of places that we soldiers go. Myself and many Soldiers that I know prefer your flashlight over other brands and it is because your flashlight is dependable, rugged and works in extreme climate situations. Due to your support of the military we all Thank You and are Honored to use your products.”—Nick SFC, U.S.A

“I'm VERY happy with my OPERATOR OP-9.

Nice and compact. The mount grips the body rock solid. Good all around bargain, too.”—lan, via the Internet
