

BLAST 2™

LASER AND TACTICAL LIGHT

LDI Patent No. 5,581,898

The powerful *BLAST 2* is equipped with a visible red Super Power Point™ laser for pin-point accuracy and a bright, white tactical light to provide the exceptional illumination needed for low light encounters.

Switch options include a 3-way lever switch or a custom-molded remote cable pressure pad switch with incorporated lever switch.

The tactical light can be configured with either a 6-volt incandescent lamp that produces 95 lumens of bright, white light or a high intensity LED that produces 150 lumens of stunning white light.

Fits a variety of popular pistols. Also available with quick release throw lever mount for use on rifles.

Export License Required.
Optional infrared laser restricted to government and law enforcement agencies only.

AVAILABLE FOR: GLOCK • SIG WALTHER • SMITH & WESSON • IMI BERETTA • MIL-SPEC-1913 RAILS SPRINGFIELD • HECKLER & KOCH

OVERALL FEATURES INCLUDE

- ▶ Attaches and detaches in seconds
- ▶ Popular holsters available
- ▶ Choice of custom-molded remote cable pressure pad or standard lever switch
- ▶ Supplied with batteries
- ▶ Manufactured in the U.S.A.

LASER FEATURES INCLUDE

- ▶ Super Power Point™ visible laser—the brightest red laser allowed by law
- ▶ Fully adjustable windage and elevation—attaches and detaches without realignment

TACTICAL LIGHT FEATURES INCLUDE

- ▶ Choice of Incandescent or LED
 - focusable/defocusable incandescent lights produce 95 lumens of light
 - high intensity LEDs produce a blinding 150 lumens
- ▶ Shock absorbing incandescent lamp virtually eliminates shock induced lamp failures
- ▶ Full-size or compact light head available
- ▶ Optional tip-off filters available

LASER SPECIFICATIONS

Type: Visible Pointer	Laser Class IIIa
IR pointer	Laser Class IIIb
Power Output: Visible Pointer	<5mW
IR Pointer	<1mW
Wavelength: Visible Pointer	635nm
IR Pointer	835nm
Full Angle Beam Divergence:	
Visible / IR Pointer	0.3 mrad
Range/Visibility*:	
Vis Pointer (Night / Day)	450 meters / 30 meters
IR Pointer	600 meters
Battery:	Two 3-volt 123A Lithium
Battery Life:	48 hours continuous

Specifications may change without notice.
*Range may vary depending on light conditions

TACTICAL LIGHT SPECIFICATIONS

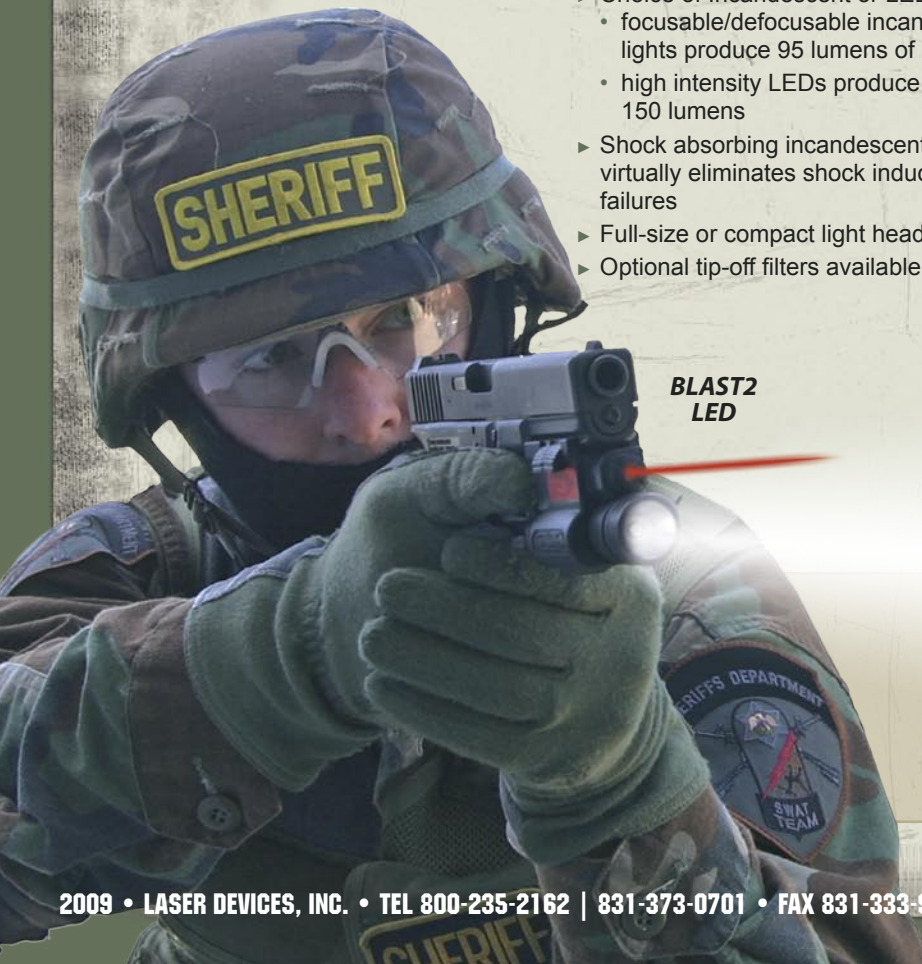

Light Output: Incandescent	95 Lumens
LED	150 Lumens
Lamp Type: Incandescent	High pressure Xenon
LED	High intensity light emitting diode
Diameter of Compact Head	1 in. / 2.5 cm
Battery:	Two 3-volt 123A Lithium
Battery Life: Incandescent	1 hour continuous
LED	1.5 hours continuous

MECHANICAL SPECIFICATIONS

Limited Warranty:	1 Year on Laser/Tactical Light
	3 Years on LED Illuminator
Material:	High impact polymer
Weight (with batteries):	3.1 oz. / 88 grams
Size:	L 3.2 in. x W 1.9 in. x H 1.8 in.
	L 8.3 cm x W 4.8 cm x H 4.7 cm
Environment:	Waterproof to 3 meters

“*BLAST 2* is the best laser and light combo I've seen.”
—Richard, Seminole, FL

“Impressive. Simple, sturdy, quick to attach and universal.”—Ben, Belmont, CA
